

HEALTHY BOUNDARIES

Most would agree that boundaries need to be set for our marriage, children, credit cards, eating habits and more. It's just healthy. But, if we're not careful, we can easily cross critical boundaries without even realizing it. Does the phrase, "That will never happen to me!" sound familiar?

Join H.B. London Jr. and his guests on this edition of **Pastor to Pastor** as they bring understanding to what healthy boundaries are, why they're important, and what to do if a boundary line has been crossed. You'll hear **Bob Buford, Mac Brunson and Dean Ridings.**
